

Selected Writings (Rethinking the Western Tradition)

Jeremy Bentham (1748-1832), philosopher and reformer, is one of the most influential thinkers of the modern age. This introduction to his writings presents a representative selection of texts authoritatively restored by the Bentham Project, University College London. As well as more familiar pieces on utility, law, and politics/policy, highlights include the succinct essay *On Retrenchment* and a never-before-published treatise on sex. The volume is completed by major interpretative essays by Mark Canuel, David Lieberman, Jennifer Pitts, and Philip Schofield. The texts included in the book are: -Sex -An Introduction to the Principles of Morals and Legislation, Preface and Chapters 15 -Place and Time -Rationale of Judicial Evidence, Specially Applied to English Practice, Book 1, Chapter 1 -Constitutional Code Rationale, Chapters 1 and 2 -Pannomial Fragments -Panopticon, or, the Inspection-House, Letters 1, 2, and 6 -Of Publicity -Manual of Political Economy, Chapters 1 and 2 -Nonsense Upon Stilts (excluding the Observations on Sieyes) -On Retrenchment
