

# End of Modern Civilization And Alternative Future

This book is an authoritative work in civilizational studies as it relates to our future. Dr. Dasa studied the civilizations in the last 5000 years and the reasons these went into oblivion. Each of them collapsed due to one or two factors like neglect of soil, moral degradation or leadership crisis etc. But in our present day civilization, all these factors along with many more additional ones are operational. Then the book goes on to chalk out the alternative future for the mankind.
