

## Exploring British Politics: the 2010 General Election

Concise, comprehensive and accessible, Exploring British Politics presents an insightful approach to British politics with a special emphasis on recent developments. Designed to stimulate critical analysis and provoke lively debate, it provides new perspectives on two key themes the health of British democracy and the transition from traditional models of government to more flexible forms of governance. Whilst framed in a discussion of the essential historical background of British politics, contemporary issues are to the fore throughout and readers are encouraged to scrutinise what is often taken for granted and to develop their own thoughts and ideas. Whether studying the subject for the first time or revisiting it, Exploring British Politics is the ideal undergraduate text.
