

# Principles of Politics: The Psychology of Strategy

This is a philosophical poetry book relating to the secret societies and their plans, strategies and symbologies. The philosophies of politics are examined with relations to the End Time prophecies and the New World Order. It assesses the occult and esoteric methods of the Illuminati, Freemasons, the Jesuits, Rosicrucians and other groups in the hierarchy of secret societies. It also shows some new science theories and equations to develop the truths of cosmology and to enhance modern technology.
