

The position of Rousseau on the Social Contract

Essay from the year 2001 in the subject Politics - Political Theory and the History of Ideas Journal, grade: A, American University of Central Asia, course: Modern Political Thought, language: English, abstract: The example to be examined is the two works of Jean-Jacques Rousseau. First one is Discourse on the Origin of Inequality, written in 1754, and the second one is On the Social Contract, written eight years later. The question is whether Rousseau maintains his position on the social contract as a trick of the rich over the poor in the second writing just as he suggested in the first one. Moreover, the clarification of the consequences of the compact in each work is proper to discuss.
