

## Inequality and Stratification: Race, Class, and Gender (4th Edition)

This concise and easy-to-read guide discusses the implications of social class, race and ethnicity, and gender explaining how each relates to economic, social, and political inequality. Its straightforward perspective views the considerations of race and gender as central to a full appreciation of the composition and dynamics of class systems. A five-part organization presents readers with effective coverage of the subject: Part I gives a broad overview and introduction to the field; Part II provides an expanded discussion of the evolution and institutionalization of industrial class systems; Part III covers the basic elements of inequality: economics, prestige, and politics; Part Four includes separate chapters on life chances and lifestyles as well as class consciousness; and Part V offers an exploration of social mobility.
