

Democracy in France: January, 1849 (Classic Reprint)

Excerpt from Democracy in France: January, 1849 I venture to believe that nothing will be found in the following pages which bears the impress of my personal situation. While events of such magnitude are passing before his eyes, a man who did not forget himself would deserve to be for ever forgotten. I have thought of nothing but the situation of my country. The more I reflect upon that, the more I am convinced that the evil which lies at the root of all her evils, which undermines and destroys her governments and her liberties, her dignity and her happiness, is the evil which I attack; - the idolatry of Democracy. Whether the accession of M. Louis Napoleon Bonaparte to the Presidency of the Republic will be found an efficacious remedy for this disease, the future will show. What I have said here after the election of M. Louis Napoleon Bonaparte, I should have equally said, without the slightest alteration, if General Cavaignac had been elected. It is not to individuals, but to society itself, that great social truths are addressed. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
